Surface Mount Underwater Light

The Model 03 is a premium underwater light for medium and larger sized boats. It is entirely made of grade 904L Stainless Steel – an exotic and rare alloy that allows it to be exceptionally durable and corrosion resistant, yet surprisingly thin and lightweight.

Available in 4 different colors – including an RGBW version, it offers stunning performance and integrates a smart network of sensors, microprocessors and electronics that amplify the wow-factor and ensure the longevity of your lights.

The precision engineered YPHOS lens creates a shaped beam that is designed to be wide and uniform and provide deep water penetration by reshaping the output to a 90° x 30°, mildly tilted beam.

- > High-Power LEDs
- > Sophisticated Optics
- > Made of 904L Stainless Steel
- > Surface-mount
- > Preset Colors & Shows¹
- > Compact & Lightweight
- > Nanocoating externally
- > On-board processor
- > Active Thermal Protection
- > Internal Drivers
- > EMC Tested & Certified
- > Simple & Fast Installation

Available in:

- Sparkling White 03-WW1962
- Deep Blue 03-BB1962
- Dual White/Blue 03-WB1962
- Full Color RGBW 03-CC1962

Lighting

Lumens
14,200 Lumens (White)

Fixture Lumens
7,700 Fixture Lumens (White)

Typical LED Lifespan
70,000+ hours, compliant to L-80

Beam Angle
90° x 30° (Horizontal x Vertical)

Electrical

Operating Voltage
12-24V DC (9.6V - 36V DC)

Current Draw (12/24V DC)
4.6 / 2.3 Amp. - Single & Dual Color
5.2 / 2.6 Amp. - RGBW

Driver Type
Internal Driver

Cable Length
9ft (3m) waterproof cable

Mechanical

Material
904L Stainless Steel

Weight
36 ounces | 1.03kg

Dimensions
D3.9" x 0.9" | D100 x 23mm

Hole cut-out for cable entry
3/4" | 19mm

Technologies

Active Thermal Protection

Reverse Voltage Protection

Low Voltage Protection

Soft Start-Up

In rush current Protection

Surge Protection

Noise Suppression

Mounting

Boat size
up to 100ft - 30m

Transom Quantity
2-6 Fixtures

Installation Depth
6 - 10" (150 - 250mm) from water level

Derlin Sleeve
Available
Not required for GRP & wooden hulls

Box Contents

Model 03 Light Fixture
with 3m/9ft pre-wired cable

Installation Manual

Self-adhesive mounting template

2 x blade fuses
1 x 4A - 1 x 7.5A

3 x Mounting Screws
